HALU HEADREST

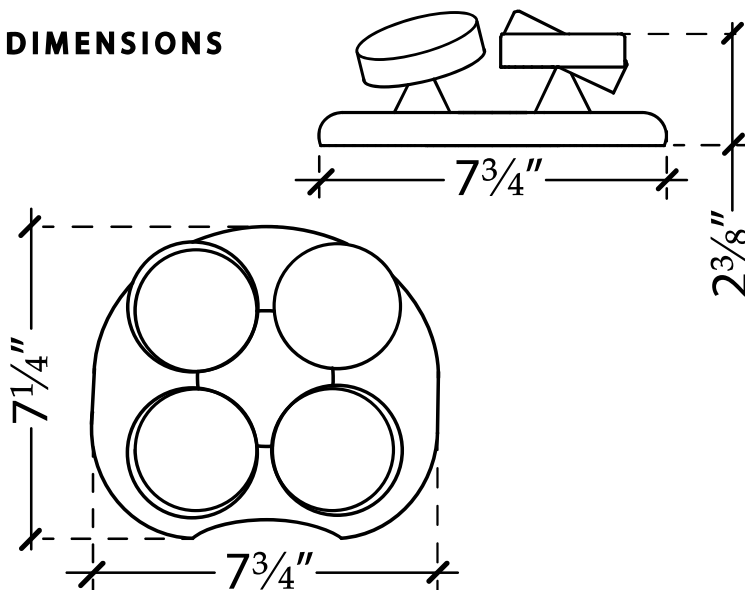

PLASTIC HEADREST ACCESSORIES

HALU-HEADREST-124

COLOR/MATERIAL

 Cream / Plastic

DIMENSIONS

FEATURES

With its four flexible, round dishes the HaLu headrest offers a complete different experience. You hardly notice that there is something situated beneath the head, because the head is lifted in such a way that it provides a comfortable position. Your head will not slip off. The pressure from the head rather than from the shoulder prevents the headrest from moving. This way the neck muscles can completely relax.

This headrest is distinctive in such a way that it is fully made of plastic, which is ideal for usage in wet locations like a Turkish steam bath or Hammam.

The headrest makes sure that you can even lie down comfortably in these places, where there is always a hard underground.

MAINTENANCE

The plastic headrest needs to be wiped and dried after use.
