

SAUNA THERMOMETER & HYGROMETER

SAUNA-T/G-003

HARVIA

Side view

Front view

MATERIALS

Stainless Steel and High Temperature Plastic

AVAILABLE COLOR

 STAINLESS STEEL

FEATURES

Thermometer & Hygrometer Fahrenheit Monitor for temperature and humidity. Features an adjustable fine-tuning screw for the gauge on the backside. Measures temperatures from 40°F to 240°F and humidity up to 100%. Crafted from high-temperature plastic for durability.

INSTALLATION

Hang the device on a screw on the wall in a neutral area, ensuring it is positioned at least 3 feet away from doors and heaters. Place it 1 foot down from the ceiling for accurate readings of sauna temperature.
